

How might an enviroschools facilitator work with your school?

Assist the school to develop a vision

Work with the staff or BOT to explore the programme

Help your school record your journey in a meaningful way

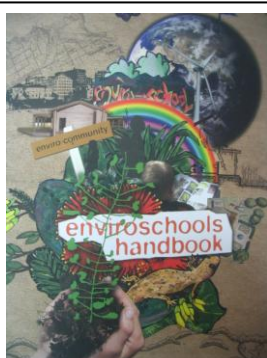

Assist a lead teacher to plan for and run an envirogroup session

Help the students prioritise ideas for action

Assist the school to measure change eg audit waste or energy

Help staff identify resources relevant to a particular exploration

Reflect on progress with staff and/or students and identify next steps

Keep you posted about opportunities and programmes relevant to your school

Take staff/students to see what other schools have done

Help your school access sources of funding for projects
